Council Presidents,

I am collecting a one paragraph bio from each council in order to put together a booklet for the Annual Meeting. This booklet has not been done for the past few years and I really would like to be able to produce this booklet. I need your help in this endeavor. This would be a good opportunity to highlight events or functions that your council does in your community. This bio is due no later than March 29th which coincides with our Executive Board meeting. Thank you in advance for participating.
