

## Pizza Installation

We start with the *Dough* that our **Treasurer**, \_\_\_\_\_ so carefully takes care of for us. She kneads it and then spreads this dough all over the \_\_\_\_\_ PTSA pizza.

Then we have the *Recipe*, no good pizza starts without a good one and that is just what our **Recording Secretary**, \_\_\_\_\_ does as she writes down all the needed ingredients for future reference.

Now our **Executive VP**, \_\_\_\_\_ is the *Pizza Sauce* because like pizza sauce she spreads herself all over, where ever the president needs her.

Well just like every good pizza needs *Green Pepper* to give it flavor, so we rely on our **Financial Secretary**, \_\_\_\_\_ to make sure our green is all distributed over our PTSA's programs.

And it is the *Red Pepper* that our **Auditor**, \_\_\_\_\_ sprinkles all over our pizza that gives it color without putting our PTSA books in the red.

Our **1<sup>st</sup> VP of Programs**, \_\_\_\_\_ is the gooey *Mozzarella* that makes for a great pizza just like great programs make for a great PTSA.

And what would a pizza be without *Pepperoni*? This round spicy topping, is one you always want to have, just like we always want to keep our **2<sup>nd</sup> VP Ways and Means**, \_\_\_\_\_ around to organize our major fundraiser, the Snack Bar.

**3<sup>rd</sup> VP of Membership**, \_\_\_\_\_ has got to be the *Mushroom*... because we want our PTSA membership to mushroom under her direction.

As Pineapple is the symbol of hospitality and sweetness, so is our **4<sup>th</sup> VP of Hospitality**, \_\_\_\_\_ so we must make sure she is on our pie.

And the **Volunteer Coordinator**, \_\_\_\_\_ is our *Olives*. Because she says "*Olive* (pronounced '*I love*') making sure we have enough volunteers" to help out and make our events a success.

Now we all *Ar-to-choke* ALL our legislators for the financial mess our schools are in right now, yet we appreciate the part that this ingredient, our **leg officer**, \_\_\_\_\_ provides to the overall recipe of our PTSA pizza.

Meatballs add substance to our pizza like bylaws add substance to our PTA. Thus our **Parliamentarian**, \_\_\_\_\_ as the meatball, must have the balls/strength to keep order in our lively meetings!

Our **Corresponding Secretary**, \_\_\_\_\_ is the onion on our pizza. This dicey ingredient is spread all over the entire pizza like she spreads the PTSA info throughout our membership.

**Historian**, \_\_\_\_\_ “saw-us-age” on the job and kept a record of it. Some say she might use it for blackmail, others say, she is just trying to count hours!

A good pizza always includes fresh sautéed *Garlic*. And Garlic helps support the heart just like the heart of **Member at Large**, \_\_\_\_\_ will support our PTSA

Now let’s not forget the spices, our **Advisors** who add the final zest to our SHS PTSA Pizza.

- \_\_\_\_\_ is the *Red Pepper Seed* - As a vice principal for several years, he has learned to sprinkle himself all over the school. By his nature, this ingredient, knows how to deal with a little heat thus he can help our PTSA out of any hot situation!
- \_\_\_\_\_ – is the BIG cheese at \_\_\_\_\_, therefore, he is our final topping and one not pizza could do without. Therefore he is the Parmesano, our pie-zono in a jam.

Finally we have our **President**, \_\_\_\_\_. As the *Baker*, it is she who must pull together all these ingredients to create the incredible, edible delight, known as \_\_\_\_\_ PTSA. She is also the *Delivery Person*. And though she rarely gets a tip, \_\_\_\_\_ with style and grace, always delivers an awesome culinary delight, known throughout \_\_\_\_\_ as the BEST PIZZA IN TOWN!

So in conclusion, I, being of questionable mind and body, now officially install all you wonderful, tasty ingredients as the officers of the \_\_\_\_\_ PTSA!
